

3CX WebClient Instructions

1. Send a request to helpdesk@manhattantech.edu for access to the 3cx web client. You will need a microphone or webcam with microphone to make phone calls.
2. You will receive a welcome email from 3CX that includes your username and password to access the website.
3. Go to <https://phone.matc.net/webclient/#/login> and login with the username and password sent to you in the welcome email.
4. You can click the dial pad to type in a phone number or you can type the number into the number field on the top right.

5. You can check voicemails and change settings on the left-hand side of the page.
